MQCC® ♦ Bungay International

Mr. Anoop Bungay is fully aware of the non-trivial nature and implications of discovery of the “Principles of ‘BlockChain’” and the world’s first application of the “Principles of ‘BlockChain’”-in-commerce.

Indeed, the discovery, commercialized, regulatory-integration and National and International standardization of the “Principles of ‘BlockChain’”-in-commerce has reshaped people's understanding of how the concept of “trust” is manufactured, stored and transmitted within the Human-Computer-Organization-System quadripartite paradigm.

Further, the MQCC™ Global Crypto-Financial System Network found at country.mqcc.org serves as a parallel global financial system that is self-regulated by the strict “Principles of ‘BlockChain’”-based rules; and quality is managed by creation of a subordinate algorithm for Quality Management Systems conforming and registered to ISO 9001:2001; ISO 9001:2008 and the risk-based, ISO 9001:2015.

All of these ground-breaking innovations are borne of conformity science and were not in existence at any time in human history before Anoop Bungay “appeared on the scene”.
